FRONT-END DEVELOPER

GitHub | Portfolio

SUMMARY:

Frontend Developer with hands-on project experience in building responsive and user-friendly web applications using React.js, Tailwind CSS, and modern web technologies. Experienced in developing reusable UI components, integrating APIs, and creating interactive interfaces. Familiar with TypeScript, Git, and GitHub, with additional knowledge of backend development using Node.js, Express.js, and MongoDB. Eager to contribute to real-world projects and grow as a frontend developer.

PROFESSIONAL SKILLS:

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, Bootstrap, TypeScript, Next.js
Backend: Node.js, Express.js
Database: MongoDB
Tools: Git, GitHub, VS Code

PROJECTS:

Wanderly – Tourist Website Live link | GitHub | Server

Developed a modern and responsive tourist website that helps users explore popular travel destinations and discover exciting travel experiences.

- Destination Exploration: Browse popular destinations with attractive visuals and essential information.
- Responsive UI: Designed a clean, user-friendly interface for desktop, tablet, and mobile devices.
- Interactive Search: Provides an intuitive search interface to help users explore travel options.
- Modern Design: Created visually engaging sections with smooth navigation and an appealing travel-focused layout.

Zorvique – E-commerce Website Live link | Github | Server

Developed a responsive e-commerce website focused on intuitive navigation and a smooth shopping experience.

- Created responsive user interfaces for product browsing and product details.
- Implemented shopping cart management and user authentication.
- Designed reusable UI components for a consistent user experience.
